## The wpd Group

Some  
**3,700 employees**  
worldwide

Today, the wpd group employs some 3,700 staff who are driving the expansion of wind and solar energy around the world and who offer a complete value-added chain in this field. The company's head office has been located in Bremen since wpd was set up in 1996.

**1,001 employees**

Development  
and operation

**518 employees**

Commercial management and  
technical operational management

**2,154 employees**

Maintenance  
and service

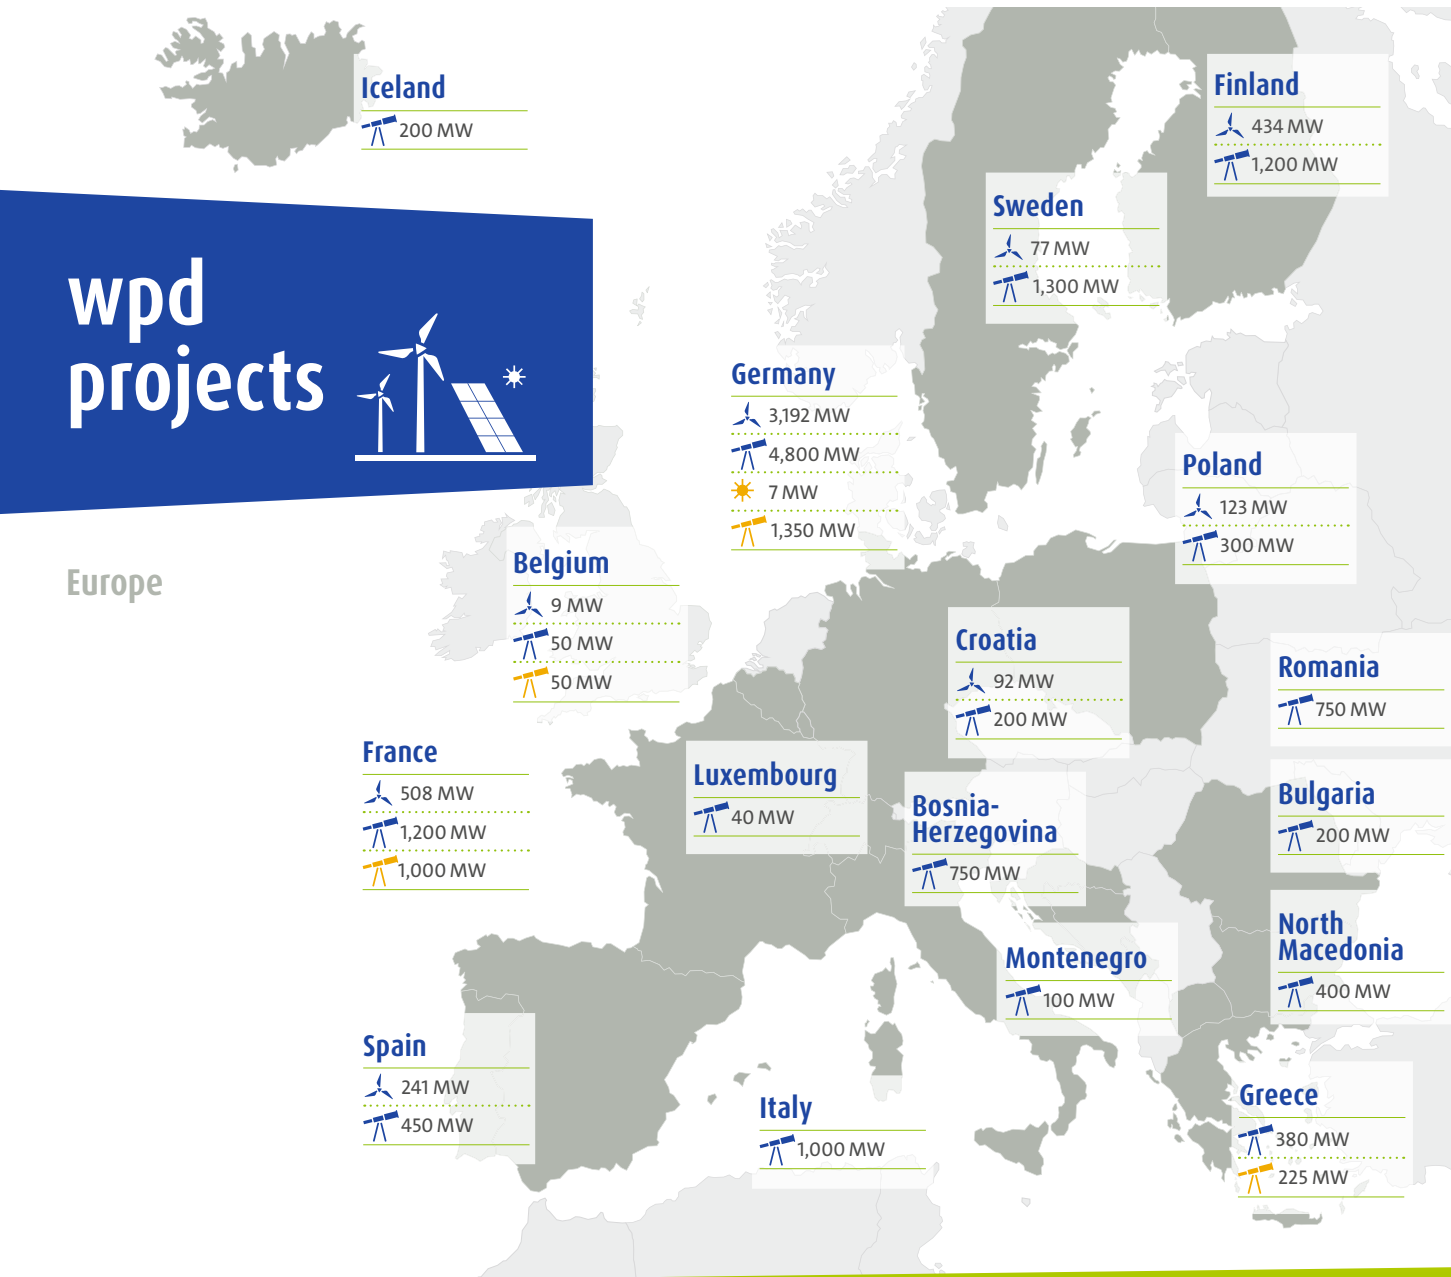

## wpd – facts

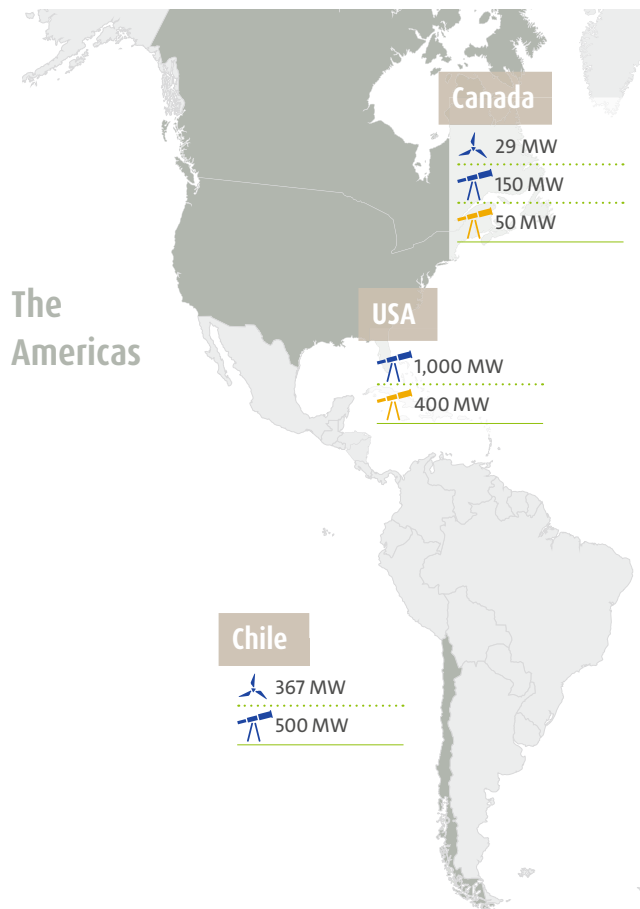

**2,630 wind turbines** set up

**6,110 MW** of installed capacity

Active in **29 countries**

**2,623 MW** own capacity (IRPP)

**15,775 MW** wind onshore  
in planning process

**3,235 MW** solar in planning process

#### Key

-  Wind projects onshore installed
-  Wind projects onshore in planning process
-  Solar projects installed
-  Solar projects in planning process

Status: 12.2022

The turbines installed by us  
in **Germany** can supply about  
**1,925,000** three-person households  
with power.

## A major success in more than two decades

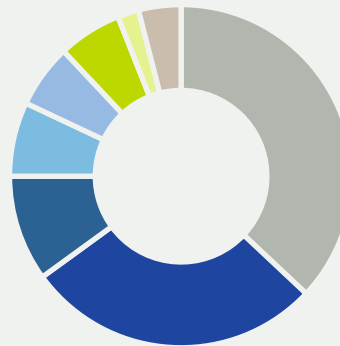

In 1996 the two founders stood alone – today 960 employees at wpd GmbH work in the wind energy division. Of these, around 530 work in the German market and 430 in international markets – and we are currently developing onshore projects primarily in Europe but also in America and Asia.

All these employees represent a total of about 2,630 wind turbines so far with a total worldwide installed power of around 6,110 megawatts. Ahead of them lie projects amounting to a further 15,775 megawatts – a challenge that all those involved approach with high motivation and the conviction that they will master it just as successfully as the others before.

The individual teams, sometimes working with partners, take reliable care of all phases of the projects – from the first evaluations of the location, wind measurements, the approvals process, finance, turbine purchase through to the construction and sustainable operation of the wind farm.

Right: Staff from the wpd team in Sweden*

### Manufacturer of the turbines installed by us

- Enercon 37 %
- Vestas/NEG Micon 28 %
- Siemens 10 %
- Nordex 7 %
- GE 6 %
- Siemens 6 %
- Frisia 2 %
- Others 4 %
